A Gold Plan Wigs

Our most natural, highest-quality custom wig — for those who want only the best.

- Choice of Full Lace Top or Lace Front with multidirectional skin (see Page 1, Section 9)
- Lace allows a fully custom hairline — widow's peaks, baby hairs, added height at the front
- Lace Top: our lightest, most breathable option with the most natural-looking scalp
- Lace Front: a more budget-friendly way to get a natural lace hairline
- Our most delicate option — requires careful handling and proper care
- The most popular choice for the highest quality, truly natural appearance

B Silver Plan Wigs

A sturdy, versatile wig for clients who need durability without losing a natural look.

- Hair is hand-sewn into silk for a thicker, more durable wig
- Multidirectional skin top for a natural, scalp-like look
- More durable than lace — great for active clients or anyone needing a sturdy piece
- Handles fuller, voluminous bangs and thicker styles beautifully
- Only about 2" of hair length is lost during construction
- Rush service is currently paused on this plan (8–11 weeks)

C Bronze Plan Wigs

A cost-effective, practical full wig — simplicity and affordability, made with your own hair.

- Fully machine-sewn wig — no lace or silk top, and no part
- Our most budget-friendly full-wig option
- Best suited to short, classic styles worn without a part
- Durable and practical for easy, everyday wear
- A more structured look rather than our most natural finish
- Still fully custom-made using your own hair
